“ Dr. Carter,

I am deeply saddened by your passing, but I am forever grateful for the impact you had on my life. During my time at Morris College, you pushed me to strive for more, to pursue knowledge beyond my bachelor's degree, and to never settle for less than my best. Your wisdom, encouragement, and dedication will always be with me.

Though you are no longer with us, your influence lives on in the lives of the students you inspired. I will honor your legacy by continuing to push forward and work extra hard, just as you always encouraged me to do.

Rest in peace, and thank you for everything.

“ Dr. Carter,

Thank you for everything you've done for me and so many others at Morris College. I appreciate the way you've inspired me as a young Black man to strive for greatness and for educating me about my history. You were like a grandfather to me, and I appreciate all our conversations.

Until we meet again, Dr. Carter.
