“ To my brother/first cousin I thank God for you, you have proven yourself as a brother and cousin, the last time that we talked you was worrying about my brother been in the hospital when you yourself wasn't well,I thank God for you when we loss our nephew in 2020 you ware deterring to be there because you said that we was bought up as brothers and sisters and you felt as you needed to be there and not one time did you complain about your self but you made sure that we all was okay, I don't care what you heard of if someone call you, you always return the call and let us know that you was there for us. I have no concern where you are spending eternity because you had a heart of gold, thank you for how you set beside your baby brother side when it didn't look good and comfort him and remind him that he had so much to live for and you encourage him that he had to live,thank you for being there for my mother you kept her posted on each one of y'all and you even reached out to her in the hospital before they put you on the ventilator and trying to tell her something I want you to know that she realize that you want her to continue to check on von, you have proven yourself to be about family and a faithful servant of God, so take your rest and know that we will always remember you and we'll love you for being the brother that you were, I'll never forget you,you are a very special person ,friend, husband, nephew,brother cousins,and uncle and grandfather you was love by people that you have came in contact with and we'll always love you and we will miss you because no one can take Willie (Jay) place.
